Internship Offer Letter

Student Name	: Rashmi Ranjan Sahoo
Stream	: B.Tech
Branch	: Computer Science and Technology (CST)
Institute Name	: Gandhi Institute of Engineering and Technology University (GIET University)
Internship Domain	: Python Fullstack Developer
Internship Duration	: January 2026 - March 2026
AICTE Student ID	: STU67ba76a1133941740273313

We are pleased to inform you that you have been selected for the 10-Week **AICTE – EduSkills Virtual Internship Program**.

During this internship, you will learn and demonstrate industry-relevant skills that will enhance your employability and strengthen your confidence in the subject area.

The program is designed to provide structured learning combined with practical exposure.

Internship Structure & Evaluation:

- The internship will follow a **week-wise structured learning plan**.
- You will be required to complete **weekly assessments** to track your progress and understanding.
- Certain modules will require submission of **project documentation and assignments**.
- In the final week, you must appear for a **Final Assessment Test**.
- The final grade will be based on your overall performance, including weekly assessments, project submissions, and the final test.

Upon successful completion of all required steps and assessments, you will be awarded a **Virtual Internship Certificate**.

Please note that this offer letter will be considered valid only after the successful completion of the internship program and fulfillment of all assessment requirements, including obtaining the final completion certificate. Without the final completion certificate, this offer letter shall not be treated as a valid document for any official purpose.

The week wise Structure of the Internship is as Follows:

Week	Module	Description
Week 1	HTML	Learn HyperText Markup Language (HTML), including page structure, elements, forms, tables, semantic tags, and website layout fundamentals.
Week 2	CSS	Master Cascading Style Sheets (CSS) including selectors, box model, positioning, flexbox, grid, responsiveness, and styling techniques.
Week 3	Bootstrap	Build responsive and mobile-first websites using Bootstrap components, grid system, utilities, and pre-built UI elements.
Week 4	JavaScript	Learn JavaScript fundamentals including variables, functions, loops, conditionals, DOM manipulation, and event handling.
Week 5	jQuery	Simplify JavaScript development using jQuery for DOM traversal, animations, event handling, and AJAX interactions.
Week 6	Python Programming	Learn Python basics including syntax, data types, loops, functions, OOP concepts, and backend development fundamentals.
Week 7	Django Framework	Build dynamic web applications using Django with models, views, templates, routing, and authentication systems.
Week 8	MySQL & Database Management	Learn SQL fundamentals, database design, CRUD operations, and integrate MySQL with Django applications.
Week 9	Git & Version Control	Understand Git fundamentals including repositories, commits, branching, merging, collaboration workflows, and GitHub integration.
Week 10	Assessment	Assessment

Note: There is no stipend associated with this internship.

We congratulate you on your selection and wish you a successful learning journey.
