PROFESSIONAL SUMMARY

Motivated Python Developer and Web Developer with hands-on experience in building web applications using Python, Django, JavaScript, and MySQL. Skilled in developing end-to-end solutions, from responsive frontends to scalable backend systems, through internships across multiple organizations. Currently pursuing a B.Tech in Computer Science at GIET University and seeking opportunities to contribute technical expertise and problem-solving skills to innovative development teams.

TECHNICAL SKILLS

Programming Languages :- Python, JavaScript

Frameworks & Libraries :- Flask, Django

Databases :- MySQL, MongoDB

Tools: Git, GitHub, VS Code, Firebase

Core: RESTful APIs, Responsive Design, Debugging

PROJECTS

AROGYA KAVAJ – Medical Insurance Cost Prediction | Python · Machine Learning · Flask · MongoDB [GitHub](#) | [Live Demo](#)

- Developed a machine learning-based web application to predict medical insurance costs based on factors such as age, BMI, smoking habits, dependent, employed or unemployed and medical history.
- Performed data preprocessing, exploratory data analysis (EDA), and model training using Scikit-learn to achieve accurate cost predictions. Built an interactive Flask-based interface that enables users to input details and receive real-time insurance cost estimates.

EDUNOVA – Student Management System | Python · Flask · HTML · CSS · MongoDB [GitHub](#) | [Live Demo](#)

- Edu Nova is a complete student management platform built with Flask and MongoDB Atlas. It provides three fully independent panels — each with its own sidebar, dashboard, routes, templates, and permission set.
- Demo accounts are completely isolated from real accounts, so you can explore freely without touching production data.

ATMPRO – ATM Management System | Python · Flask · HTML · CSS · MongoDB [GitHub](#) | [Live Demo](#)

- Developed a secure web-based ATM Management System that enables users to perform banking operations such as balance inquiry, cash withdrawal, deposit, and transaction history tracking. Implemented user authentication, session management, and real-time account updates.
- Designed a responsive and user-friendly interface to ensure seamless banking transactions and improved user experience.

TASTETRIAL – Food Delivery Website | HTML · CSS · JavaScript · React JS · MongoDB · Git [GitHub](#) | [Live Demo](#)

- Developed a full-stack food delivery web application that allows users to browse restaurants, explore menus, place orders, and manage their accounts seamlessly. Implemented secure user authentication and order tracking using WebSockets.
- Designed a responsive and visually appealing interface to enhance user experience across desktop and mobile devices.

PROFESSIONAL EXPERIENCE

Python Developer Intern — Aicyverse (OPC) Pvt. Ltd. *May 2026 – Present*

Developed and maintained Python-based applications, focusing on clean, efficient, and scalable code. Collaborated with the development team to design, test, and deploy web application features using Python and related technologies.

Python Full Stack Developer Intern — EduSkills Foundation *Jan 2026 – Mar 2026*

Developed responsive web applications using Python, HTML, CSS, JavaScript, and backend frameworks, ensuring seamless user experiences. Implemented frontend and backend functionalities, integrated databases, and optimized application performance for efficient data management.

Web Development Intern — Zaalima Development *Aug 2025 – Nov 2025*

Designed and developed responsive websites using HTML, CSS, JavaScript, and modern web development practices. Built interactive user interfaces, optimized website performance, and ensured cross-browser compatibility for an enhanced user experience.

Web Development Intern — Cyberelite Task Force (CeTF) *May 2025 – Jun 2025*

Developed and maintained responsive web applications using HTML, CSS, JavaScript, Python, and modern web technologies. Created user-friendly interfaces, implemented dynamic features, and optimized website performance to improve usability and accessibility.

EDUCATION

B.Tech Computer Science & Engineering — GIET University, Gunupur *Aug 2023 – May 2027*

+2 Science (PCM + IT) — Saraswati Higher Secondary School, Cuttack *Jul 2021 – Mar 2023*

+10th — Acharya Pari mohana Vidya Niketana, Cuttack *Jun 2019 – Mar 2021*
